

Apply to register as a translator

We would be delighted to receive your application to register with CrossLingua as a freelance translator. To do so, please send your CV together with details of your languages, qualifications, specialist fields and **price per word** to application@crosslingua.de. Incomplete applications will not be considered.

Please note that we only work with translators who possess the requisite qualifications. Furthermore, we observe the native speaker principle. This means that we can only accept your native language as your target language.

Currently, we are looking for translators with one of the following language combinations:

- German -> English (only translators certified in Germany)
- Italian German (only translators certified in Germany)
- Turkish German

Since we receive many applications from translators, please understand that we cannot respond to applications from translators with other language combinations or to incomplete applications.

Please do not apply if your language combination is not listed above.

Your point of contact: Tobias Nikolajewski
