

## **How is the price of a translation calculated?**

Our prices are determined on the basis of the language combination, urgency, degree of difficulty and the number of words in the original text. This means that our pricing is always transparent for our clients. Discounts are naturally possible with lengthier texts.

For certified translation we quote a fixed price including certification and postage.

In order to receive a free and non-binding quotation please use our [quotation wizard](#) or send us an email to [info@crosslingua.de](mailto:info@crosslingua.de).

We are naturally also available to you by telephone on 0221/949 66 575.
