

Desktop publishing

You have brochures that you wish to print in various languages? Then translation alone is not enough. We work together with specialists, who ensure that your printed products look the business in every language. And even if the text is to read from right to left (as with Arabic) or Cyrillic characters are required: We guarantee that the hyphenation and typeface will be spot on.

You have the last word: Prior to completion, you receive your print product from us as a PDF file for acceptance.

We work with programs including Adobe Illustrator, InDesign, PageMaker, MS Publisher and QuarkXPress.
