

Translations

You wish to have a text translated into one or more foreign languages? Then you are in the right place with us, because translation is our core competence. When it comes to translation, we know that a finished translation should read like an original text in the target language. We achieve this by selecting native speakers of the respective target language exclusively for your translation.

The requirements applicable to a translator can vary significantly depending on the type of text and the specialist field. After all, there is a vast difference between how a private letter, a court judgement and an operating manual should be translated. When selecting our translators we are therefore particularly careful to ensure that they possess the requisite expertise in the respective field.

Furthermore, the use of modern translation technology (such as SDL Trados Studio) guarantees that your translations remain consistent and satisfy the highest demands.

Urgent translations

We are also your reliable partner when things need to move fast. Also outside of business hours and at weekends. Because we work together with translators around the globe, we are also capable of realising deliveries at short notice. Naturally of the customary high quality. Try us out when you find the heat is on!
